

### Parent Access

Have not created a parent account? Follow the steps below:

- Have your child login to DreamBox.
- Select "Set up parent access" in the bottom right hand corner (it is **VERY** small in blue)
- Place your email address & a password to create your parent access account
- You will use the same link as your child to login. However, use the right side of the screen (Teacher or Parent Login)

This will allow you to monitor your child's progress. You can receive email reminders if your child has not been using DreamBox as often as they should.

**Reminder** – students should have 1-3 standards met **EACH** month.

### DreamBox

DreamBox is to be completed by the student with **NO** assistance from another.

What happens if I help my child?

- DreamBox is collecting data and believes they are ready for more rigorous content
- They might get put on a path they are **NOT** ready for
- This might frustrate them and make them want to stop doing DreamBox

If someone has already assisted the student, encourage them to persevere - brain research has revealed that when we make mistakes we "grow" our brain!

DreamBox a *minimum* of **60 minutes a week** to make growth.

### What is DreamBox?

It is a digital adaptive mathematics program

It adapts to provide lessons students need

It is rigorous and challenges students to think critically

It is meant to be done independently by the students

It is engaging and motivates students to want to do math!

**Information on initial placement (QR Code)**

### Learning Environments

*Use the QR codes below to experience DreamBox just as your child does!*

**Kindergarten – 2<sup>nd</sup> Grade**

**Icons for the K-2 Learning Environment**

**3<sup>rd</sup> – 5<sup>th</sup> Grade**
